

Preetam

Hyderabad, India • pritam.exe2k4@gmail.com • github.com/pritamexe2k4-cmyk • linkedin.com/in/preetam-naik2k4

Summary

ML Engineer — classical ML pipelines + applied LLM APIs with **Python, Pandas, scikit-learn, FastAPI, Azure OpenAI, Next.js/Supabase**. Targeting junior / associate **ML Engineer** roles.

Technical Skills

Languages: Python, SQL, TypeScript/JavaScript

ML / Data: Pandas, NumPy, scikit-learn, feature engineering, EDA, clustering, classification, train/test/CV, metrics

APIs / LLM: FastAPI, Azure OpenAI, REST APIs

Web / Infra: Next.js, React, Supabase, Postgres, Docker, Git, Vercel

Experience

IncluHub — AI Intern → AI Orchestrator

Mar 2026 – Aug 2026

Creative education school + fashion social / hiring network

Hyderabad

- Owned the **React Native + Firebase + GCP** fashion app: RBAC, multi-store data, CI via **GitHub Actions**, live to ~1,000–3,000 users.
- Shipped a CRM on **REST APIs** that replaced ~7–8 campaign Google Sheets for 3 salespeople (~100–150 leads/day in); after CRM, team throughput rose to ~70–100 calls/leads/day (~50%+ lift).
- Connected Meta Graph, WhatsApp, and Ads **APIs** into one CRM workflow so ads, leads, and follow-ups were not split across inboxes.
- Built the IncluHub Student Dashboard (Admin / Educator / Student) for real school ops; live to ~40–50 students and ~4–5 educators.

Street Cause, VNR VJIET — HR Head

Jan 2024 – Dec 2024

National NGO campus chapter

Hyderabad

- Ran campus HR: recruitment, onboarding, and volunteer ops; grew the chapter 9 → 30+ members (~230%).
- Owned staffing for drives and campus events reaching 300+ people per flagship programme.

Projects

Chat_Bot — Azure OpenAI FastAPI Chat

Python, FastAPI, Azure OpenAI, Docker

github.com/pritamexe2k4-cmyk/Chat_Bot

- Typed **FastAPI** chat against **Azure OpenAI**: system prompt, history window, `/api/chat` + health, static UI; env config; Uvicorn / Docker.

Digital Behaviour Intelligence (DBI)

Python, Pandas, NumPy, scikit-learn

github.com/pritamexe2k4-cmyk/digital-behaviour-intelligence

- Designing & building: raw events → entity profiles (recency/frequency/intensity/diversity/trend) → segments → change features → supervised engagement (Increasing / Stable / Declining).
- Phase 1: docs + `src/` stubs; dataset locked. Designing/building — not production ML.

IncluHub Dashboard

Next.js, TypeScript, Supabase, Vercel

Live demo • GitHub

- Role-based school ops (Admin / Educator / Student): Auth + RLS, institutes, stages, portfolio review, studio QR check-in — real IncluHub workflows.
- 22 **SQL** migrations + server actions on **Vercel**; founder flows replace sheet onboarding.

Education

VNR VJIET — B.Tech CSE (AI/ML)

2022 – 2026

Hyderabad

Extracurriculars

ElevX — Branding, Wording & Web

Creative / brand ops

<https://www.elevx.in/>

- Major contributor to ElevX brand wording, messaging, marketing, and website design for [elevx.in](https://www.elevx.in/).
